move in a solid phalanx, spreading dismay among our opponents. We have now the most active, spirited, and energetic party in the city, and at the approaching contest will bring out a body of independent, liberal voters, who will neither ask nor grant quarter."

Previous to this, there were two distinct organizations-now both were blended in one. As the Fall elections approached, the party made such nominations as were mutually satisfactory, taking an equal proportion from each former division. The election passed, and all went off well, nor was any complaint heard until the fall of 1834, when the men who got up the Bulletin and the Globe party thought of the scheme of uniting themselves with what was called the Workingmen's Party-a party not professing to be friendly to the National Administration, and which supported the warmest opponents of the administration for office, in fact, a mere addenda to the National Republican party-for the purpose of breaking down the old and Mr G. W. Bazin was called to the Chair, and Mr steady triends of the general government, and satiating J. G. Flagg elected Secretary. The object of the meetthe rancour which had slumbered in their bosoms for ing being stated, viz: to conciliate the conflicting divisyears. The moment the election had passed, last year, it was announced that a portion of the Whig Working- ton, to report a list of names as candidates for the men's party, united with the old Bulletin clique, who County Committee to be supported this evening at Fanfound it impossible to live peaceably any where, had determined to take possession of the regular organization of the Jackson Democratic party, and manage it as suited themselves-sell it to the Whigs, or any one who would bid highest. Accordingly, plans were immediately formed for the purpose of accomplishing this scheme. The moment the Legislature assembled, the Democratic members were besieged day and night-all the old and oft-refuted calumnies were revived, and every thing done to excite division and ill-will in our ranks, and to defeat any harmonious action throughout the State, by endeavoring to prejudice the feelings of Representatives from the interior. One of the charges against the regular party was that its members interfered too much with the decisions of members of the Legislature in party matters, while those who made it were dogging the members continually-whispering in their ears at every corner, and endeavoring to deceive them into a belief of the most bare-faced calumnies. Then commenced an attack in a paper called the "Independent Chronicle and Boston Daily Evening Reformer" upon the firmest friends of the National Government in this city, and upon the only press in Boston which has fought for the National Administration through good report and evil report from the inauguration of Andrew

those who surrounded it-the guides and leaders of whom are the old Eulletin and Globe disorganizers.

The Workingmen's Party, as it was called, cast five hundred and thirty votes for their candidate for Governor, last Fall, in this city, and the regular Democratic party, (the faction!) two thousand and sixty. This clearly proved that the true Workingmen were with the party that supported Judge Morton, and hence the determination of those who had opposed him, after finding that they could not injure him, to affect to join those who had sustained the Judge-the regular administration Democrats, who had adhered to him steadily for six or eight years. And how did they come among us? As friends and fellow laborers anxious to support We came to the determination, some four years the cause we were advocating? Agreeably to this call we repaired to the Exchange at the hour designated, and found the room where the meeting was held full. Many were there from both divisions of the party-among others was the Editor of the Reformer. The following is the account of the proceedings of the meeting, as published in the Post apon the morning after it took place, together with the omments made upon them-we re-publish the whole in the same manner in which it originally appeared to convince our friends at a distance of the strong desire of the regular party to act unitedly and harmonious ly with all who even professed to be friendly to the national government, if possible :-

hoping that the Senate would not confirm the President's nomination-the gold carrency, by joining the Whigs and denouncing it all a humbug ! and in terms which were exultingly quoted by the Beston Atlas and U. S. Telegraph. At one time they pronounced the political integrity of Col. Amee, a delegate to the Baltimore Convention, "unquestioned and unquestionable," and at another decried him as unworthy any confidence .-On the 29th of June last, the Democratic National and State Nominations were taken from its columns, and the following apology offered by its editor for ever having published them :--

"The evils of partial legislation can be cured in no other way than by the abrogation of those vicious and demoralizing laws which now disgrace our statute books, and by the enactment of others, founded in justice, and adapted to the promotion of the welfare of all, and of all alike. Hence, the object first to be secured, was to have a majority in the Legislature of the State who should be interested in the contemplated improvement, and qualified to effect its accomplishment. The desirableness of this object is the only excuse to be rendered for suffering this journal to espouse the cause of one of the political parties now in existence. Such is the state of things in this country, that every question, however deeply affecting the interests of the people, must be decided by party warfare, and party violence. And he who can so far succeed in neutralizing political animosities, as to render the movements of either party subservient to the general good, will merit the unqualified respect of the present, and the veneration of all succeedng generations.

The Democratic flag was thus hauled down, and kept out of sight for some five or six days, when the clique found they were losing strength by it, and run it up

Every effort has been made by the regular Democratic party to conciliate these pretended friends-concession after concession has been made to them-amalgation after amalgamation formed with them, but they have always proved recreant to their promises, treacherous in their conduct. We have long been satisfied, and we presume the demecratic party in the state will now be satisfied, that they are influenced by personal, revengeful feelings, and that anything like harmonious action with them is impossble.

SATURDAY, SEPTEMBER 5, 1835.

Upon our First Page we have placed a detailed account of the proceedings of the Democratic Party in Boston, for several years back, to which we would call the attention of our readers generally.

The alleged frauds on the Revenue in New York .- The New York Morning Herald has given a detailed and interesting account of the modus operandi of Messra Bowen & Addoms, in the smuggling transac-The article smuggled is a species of Merino printed cotton goods, subject to a duty of six cents per running vard; there is a printed article manufactured of wool also called "Merino prints," which is duty free. The packages consisted of 60 pieces, the lower of "cotton merino," subject to six cents, and about half a dozen of the duty free woollen Merino pieces on the top of each. In this mode about \$100 was saved on each package. Mr. Bowen, in entering his goods at the Custom House, usually applied to Mr. Campbell, one of the Deputy Collectors-but sometimes he also made an entry with M. Swartwout, another deputy. The packages were opened at the Custom House, and were found apparently to contain printed woollen Merino, and of course passed duty free.

The importers of similar goods have been entirely undersold by B. & A.; notwithstanding which, one of the latter firm made a public boast that their profit and loss account, for six months previous to March last, showed a nett gain of \$60,000. The circumstances of the case appeared so singular, that at last one of the importers, D. F. Manice, of Pearl street, determined to investigate the subject, and for that purpose purchased one of the original packages of B. & A., upon unpacking which he discovered the fraud just mentioned .-After consultation, Mr. M., accompanied by two other merchants, went to the Custom House for the purpose of informing the Collector of the facts. The Collector was out of town, and the case was laid before Mr. Campbell, a Deputy Collector, who, being satisfied that there was good grounds for the charge, took measures to seize the whole store and goods of B. & A., to the amount of \$80,000, and upon examination found seven packages of the alleged smuggled goods in the store. Previous, however, to the seizure, Bowen got wind of what was going on, made application at the Custom House to have the original entry of these seven packages exchanged for another, alleging that it was a mistake-a negative answer was of course returned. Upon the return of the Collector he was made acquainted with the transaction, and immediately wrote to Washington for instructions. In the mean time, unsuccessful efforts were made by Mr. Bowen's counsel to settle the matter without a public exposure. Mr. Addoms was in England when the alleged fraud took place, and the goods were bought through the house of A. & S. Henry & Co. of Manchester, of which Mr. Scoffield, a partner, is now in Naw-York, and of course may know the origin of the order for packing up the goods in such a form. On Tuesday, Mr. Bowen took passage in the packet for Liverpool-and subsequently, the affidavit of Mr. Swartwoat was laid before Justice Wyman, of the Police Court, a warrant granted for his arrest, and the Revenue Cutter, with an officer of the U. S. Marshal's office on board, despatched to arrest and bring him back to answer for the alleged perjury in swearing to the entry in question.

The Cutter returned to New York on Wednesday evening, having ascertained on her arrival at the bar. at half past 7 o'clock, that the pilot had left the ship at 2 o'clock outside the bar, and that she went off under a press of canvass with a seven knot breeze-consequently all efforts to overhaul her would have been superfluous. The Captain of the Cutter received his orders at 3 o'clock, and was underway in five minutes-the wind being light she was towed out by a Steamboat.

Massachusetts Legislature .- In the Senate, yesterday, a portion of the revised statutes were considered and passed, and a committee of supervision and engrossment appointed. In the House, several orders were adopted on the same subject, upon a portion of which an animated discussion took place. At 11 o'clock, the two Houses assembled in Convention, to make choice of a Senator to supply the place occasioned by the death of the Hon. G. A. Tufts; the result was as follows: Whole number of votes 388; necessary to a choice 195 -Alexander Do Witt had 171, and Henry Prentiss, 217.

Ship and Shore: or leaves from the Joarnal of a cruise to the Levant. By an officer of the U. S. Navy, N. Y., Leavitt & Co. 1 vol.

This is the most interesting book we have looked into for a long time. The style is very graceful, flowing, and unaffected, while the scenes described are painted with graphic vigour. We feel confident that the fayour which this volume must win from the public will secure the publication of succeeding ones from the same pen.

The Massachusetts Directory, is the title of a neat little work just published by John Hayward, corner of Court and Tremont streets. It contains a vast fund of useful statistical knowledge, which it must have required an infinite deal of labor to collect, and which should find a place in every family in the Common-

In Time .- In consequence of some symptoms of a riotous disposition in Charlestown, a body of the citizens have organized themselves for the purpose of preserving the peace, and have provided themselves with arms for that purpose-they are ready at a moment's warning to act under the constanted authorities.

The Citizens of Concord will celebrate the 2d Centennial anniversary of the settlement of that town, on the 12th inst. An Oration will be delivered by R. W. EMERSON, and great preparations are making in other respects to give eclat to the occasion.

For the Boston Morning Post. Saltpetre and the Moon .- It is singular that so much doubt and discussion should exist with regard to the explosibility of saltpetre, when the question may be so easily decided by experiment. I recollect, that some years ago I placed a small piece, about the size of a chestnut, upon burning coals, expecting an immediate explosion or flash like that from powder, but was at first disappointed. After some time, however, perhaps a minute or two, an explosion or flash, I forget which, took place. I have just made an experiment, by placing a piece of nitre, half the size of a pea, upon the wick of a common lamp. After its remaining some tions in which their house has recently been detected. time, a flash was produced like that arising from a few grains of gun-powder. I infer from this, that if nitre will thus produce a flash in the open air, it will effect an explosion when ignited in a confined state. A charge of powder, when fired in a gan barrel, having a wad, will explode with a loud noise; but if the same charge be fired in the open air, spread upon a board, it will only cause a flash without noise, or with very little. Did the Board of Engineers, before making their Report (I do not mean explosion) try any experiments, which are so easily made?

Perilous Ascension .- Mr Hobart ascended from Lynchburg, Va., on Tuesday week, to the astonishing height of 26,000 feet. At half past 7 o'clock, being bonds—was not concluded on Saturday, and will peak above three miles from the earth, he saw two fiery meteors, one of which coming directly towards him, threw him into an ague of consternation, lest it should burn him up. It, however, passed harmlessly; but his troubles were not ended here-for he was shortly after caught in a gale, which whirled him up to the perilous height mentioned, where he could scarcely breathe, and could not hear at all. He every moment expected his balloon to burst, and even his own blood vessels to give way. The former accident did actually take place, and thus, we suppose, insured the safety of his sanguiferous system. He came down in a hurry ; but fortunately alighted in a favorable spot, where he had no bones broken. On examining his balloon, he found a rent in the top, about twenty inches in length, besides sundry other openings, to the tetotal ruin of the of the papers to the effect that the command of Major

We have the opinion also of one of the largest manufacturers of Gunpowder in the Unite Sares, also most of the importers and dealers in saltpetre in B ston, and several chemical gentlemen—all concurring in the opinion that the explosion on board the Sarah was not caused by saltpetre.

If it be otherwise, if saltpetre does possess such dangerous power, the danger of attempting to exit guish a fire in any of the tomerous warehouses where it is kept, as well as the accessity of extending restrictive regulations now applicable to genpowder, is sufficiently obvious.

Boston, FOR A SHORT TIME ONLY, as she is to introduce engagements very soon.

JOICE HETH is inquestionably the most astonishing and interesting curiosity in the World! She was the Slave of Augustine Washington, (the father of Gen. Washington.) and was the first person who put clothes on the unconscious infant who in after days led our heroic fathers on to glory, to victory and to freedom. To use her own language when speaking of the Blustrious Father of his Country, "she raised him"—JOICE HETH was born in the Island of Madagascar. On the Coast of Africa, in the year 1674, and has consequently now arrived at the astonishing

Coast of Africa, in the year 10/4, and inds consequently arrived at the astonishing AGE OF 161 YEARS!!!

She weighs but forty-six pounds, and yet is very cheerful and interesting. She retains her faculties in an unparalleled degree, converses freely, slugs numerous hymns, relates many enteresting anecdoles of Gen. Avashington, the red coats, &c., and often laughs heartily at her own remarks, or those of the spectators. Her health is perfectly good, and her appearance very neat. She was bantized in the Potomac river and received into the Baptist Church 116 years ago, and takes great pleasure in conversing with Ministers and religious persons.—The appearance of this marvellous relic of antiquity strikes the beholder with amazement, and convinces him that his eyes are resting on the oldest specimen of mortality they ever helore lighted. Original, nutrientic, and indisputable documents prove that however astonishing the fact may appear, JOICE HETII is in every respect the person she is represented.

The most eminent physicians and intelligent men both in New York and Philadelphia, have examined this living skele ton and the documents accompanying her, and all invariably pronofonce her to be as represented, 161 years of age! Indeed it is impossible for any person, however incredutous, to visit her without astonishment, and the most perfect satisfaction that she is as old as represented.

Ar A female is in continual attendance, and will give every attention to the ladies who visit this relic of by gone ages.

She was visited at Nibilo's Garden, New York, by ten thou sand persons in two weeks. Hours of exhibition from 9 A.M. to 1 P.M.—and from 3 to 10 P.M. Admittance 25 cents—Children 12½ cts. The most eminent physicians and intelligent men both in

GENUINE LIFE PRESERVERS.

From the Baltisore Patriot.

THE following paragraph, seting forth the value and is portance of these Life Presevers, is from a late norm of the New York Journal of Connerce. The expense of p caring a full supply of the afficietor every steamheat, would be comparatively inconsiderable, and ought not to enter into the calculation, when taking meatres for adding to the safety of passengers, and for the prescration of human like. We learn that any number of these "Ife Preservers" any be obtained at short notice of Messrs I flutchings & Co, in this

tained at short notice of Messrs a Hutchings & Co, in this city.

Lipe Preservers —As it is impossible for steamers to carry small boats enough to secure the lives of their passengers in case of disaster, they ought to be purshed with a sufficient quantity of the India Rubber LifePreservers. The expense which may otherwise occur, would be well high complete.—The preserver is nothing more nor, iss than a double girth to be buckled round the body, which can be put on and inflated in less than a minute, and being on, he individual cannot sink, but would float with his fixed and noulders above water for months. If five hundred persons were to be cost on Long Island Sound or Hudson River, each with a Life Preserver on, they would be saved. But what would be their condition if obliged to betake themselves to tless waters without such protection, especially if a dispater should happen in the night? We think the owners of steamhouts swe it to their passengers to be provided with a sufficient number of Life Preservers always on hand, to furnish each passenger with one.

The LIFE PRESERVER may be obtained, in any quantity, at the Roxbury India Rubber factory, where this article was first invented. Wagehouse No 100 State st, Boston.

Gent.—I cannot refrain from expressing my gratitude to you in offering me a bottle of Dr Phelps' Arcanum, as an experiment in my case of Rheumatism. I have been dreadfully afficted for upwards of twelve months, and for the last four or five months have scarcely been able to walk. I have used a change in my whole system, that I was induced to try another, and to my surprise, the pans in my legs all disappeared, and the Ulcers in one have completely healed up, and I can walk nearly as well as ever. I shall continue to take two bottles are, and firmly believe it will make a complete cure of my disease.

I remain, gentlemen, yours very respectfully, JNO. MORRALL.

Extract of a letter from Dr Jones, a highly respectable physician, dated Eaton Rogue. Louisiana, Dec. 28, 1833.—
The Arcanum had two powerful competitors, Swaim's Panacea, and Potter's Catholicon, which have been for years in circulation in this place. As far as I have bed an opportunity of ascertaining its virtues, I believe the Arcanum to be superior to any article of the kind, yet offered to the public. I prescribed it in a case of Irritable Ulcer of three years standing, situated on the Malleolus Extrenus—the individual thus afflicted was much emacated and debilitated,—after one week's attendance, I put him upon the Arcanum, following the directions—three bottles nearly effected a cure of the ulcer and bodions-three buttles nearly effected a cure of the ulcer and bodily health.

I prescribed it in several Mercurial and Syphilitic Affec-

I prescribed it in several Mercurial and Syphilitic Affections, where it proved salutary. I am at this time trying the Atcanam on an individual, who has been laboring under Ulcerous affections of one of his legs, for fifteen years,—he has taken I bottle only, and it has produced that effect, he is sauguine in the belief, it will effect a permanent cure.

Concord, N. H. Jan 30, 1832.

From Mr Samuel Everett.

In October 1830, I was attacked with a cough accompanied with a severe pain in the side and difficulty of breathing. I resorted to several remedies but without effect. In January 1831, I was attended by a skilful physician, and subsequently received the advice of several others—but the disease steadily increased; the cough was incessant, attended with a broody and offensive expectoration; my fiesh was wasted, my feet swollen and my strength extremely reduced. In April my case seemed utterly hopeless—I was told by my physicians that medicine could be of no further service to me, and it was not expected by any of my friends that I could survive a month. expected by any of my friends that I could survive a month. ble Pulmonary Balsam, (which she had heard highly recommended for similar complaints,) and prevailed on me to mended for similar complaints,) and prevaled on the to make trial of it. Its use was attended with the most unexpected and happy result. It gave me immediate relief and one bottle effected a cure. I have since been free from pain in the side and cough, except in the case of common colds.

Particular Caution. Each genuine bottle is enclosed in a blue wrapper, on which is a yellow label signed SAMPSON REED. *** None other can be genuine. The great celebrity of the genuine V. P. Balsam has been the cause of attempts to introduce spurious articles, which by partially assuming the name of the genuine, are calculated to mislead the public. Among these spurious mixtures are the 'American Pulyrowski. found very beneficial as a cathartic and alterative, as it neither causes debility, nor does it, as is the case with the operation of most medicine, so readily dispose one to take cold.

The Vegetable Extract has now been some time before the public, and its great powers justly tested. Hundreds of individuals have successfully tried it, and several eminent physicians are in the almost daily use of it in their practice, who are truly astonished at its great curative qualities, and are ready to give their testimony in favor of its efficiency and power. There now remains but one obstacle in the way of its very general use, and that is, the price. The proprietors, being very general use, and that is, the price. The proprietors, being the proprietors of the genuine.

R. CERLIEU'S CELEBRATED OINTMENT—A sovereign remedy for the Salt Rheum, Scald Head, Leprosy and all other Cutaneous complaints. These dreaded diseases, which are met with so much reluctance by the physician and in which he is so universally unsuccessful, have at length found a certain remedy in Dr Cerlieu's Ointment. This article has stood the test of experience and justly gained unexampled celebrity. It has in three or four weeks cured cases of more than thirty years standing, which baffled the art of the most experienced physicians and resisted the power of every other remedy that could be devised. It immediately removes the scab of the skin, and restores its original color and smoothness, Sold wholesale and retail by ANDREW GEYER, No 104 Hanover street. Price 56 cents per bottle.
